

Paperstone Loading Guidelines and Weights

To protect EHC customers, staff and the Paperstone product, we have developed guidelines to ensure safe loading and delivery:

- * EHC will not cut Paperstone and cutting materials is not allowed on EHC premises.
- * Vehicle must accommodate Paperstone in a flat position. Material will not be secure in upright position.
- * Paperstone cannot be placed on ski racks.
- * Legally, the load may not extend more than 4 feet behind the back end of the vehicle.
- * EHC reserves the right to refuse loading if the situation is deemed to be unsafe for EHC staff.
- * EHC does not provide materials for securing loads and will not assist in securing loads.
